## DUST BINS & TROLLEYS

**Welcome** to the world of ATUL FAMILY crowned with ISO-9001. Here is almost endless list of end-uses... Water Tanks, Cylindrical Vertical Open Tops, Pickling Tanks and end process Trolleys for waste material. Indeed, the list also covers almost all users of multi-plastics... a segment with exclusive domestic commercial and industrial growth. While our quality is transparent, we offer everyone a dynamic tradition.

We have come out with a unique product made from UV stabilised Liner Low density Polyethylene (LLDPE & HDPE). This product is cheaper and better, both in design and functionality than its counterparts offered elsewhere in the world of containers.

### REGULAR FIX STAND BIN & REGULAR MOBILE BIN
